Erasmus+ KA 107

Higher education student and staff mobility between Programme and Partner Countries

Within the frame of the current Erasmus+ programme generation, the “Erasmus+ International Credit Mobility” (Key Action 107) has been established in 2014/15. Since that time, it is possible to implement student exchange activities, teaching staff and staff for training activities with partner institutions world-wide, based on inter-institutional agreements between the partner institutions. The call for applications within that Erasmus Key Action is open once a year. Only institutions of higher education in the Erasmus+ programme countries that already participate in the Erasmus+ programme are eligible to apply.

Depending on the world region, the mobility of university students, lecturers and staff coming from partner countries to Germany (incoming) and/or going from Germany to partner countries (outgoing) can be granted. The duration of stay of students (undergraduates, graduates, PhD students) is limited from 3 to 12 months. The mobility of lecturers for teaching or staff for training can be supported for a stay of at least 5 days up to 2 months at the host institution.

Grants

Student Mobility

<table>
<thead>
<tr>

Deutscher Akademischer Austauschdienst
German Academic Exchange Service
Travel grants

In addition to the individual support/Erasmus+ grants mentioned above there are travel grants for students and staff available. The distance between the sending institution and the receiving institution is calculated via the EU distance calculator (https://ec.europa.eu/programmes/erasmus-plus/resources/distance-calculator_en). The one-way distance is the basis for the calculation of the amount of the travel grant.

<table>
<thead>
<tr>
<th>One-way distance according to EU calculator</th>
